All music, playing, programming, recording, mixing and mastering by Peter Cox

Recorded at Down The Road studio NL in 2022.

“The Golden Gate of the Ecliptic is an asterism in the constellation Taurus that has been known for several thousand years. The constellation is built by the two eye-catching open star clusters of the Pleiades and the Hyades that form the two posts of a virtual gate at the two sides of the ecliptic line. Since the Pleiades are also known as the seven sisters, their respective names provided the trigger to write the 9 songs of this album. It also makes up for a somewhat logical follow up to previous album Bridge To Infinity.

Sweet Dreams...”
