The tenth Earthshine release, what a trip!

“The Age of Aquarius is the coming (or current) astrological age. As a product of the Earths precessional rotation, we are entering a period of 2160 years in which humanity will be affected. With what or how? We cannot be sure. Maybe we will see the rise and fall of empires. Or inventions that radically change what we know. Maybe we’ll see a world ruled by secretive, power-hungry elites seeking absolute power over others; that knowledge in the Aquarian Age will only be valued for its ability to win wars; that knowledge and science will be abused, not industry and trade; and that the Aquarian Age will be a Dark Age in which religion is considered offensive...

One thing is certain though: Change is the only constant...”
